THE KENYA POLYTECHNIC UNIVERSITY COLLEGE
ELECTRICAL AND ELECTRONIC ENGINEERING DEPARTMENT
(TELECOMMUNICATION OPTION)

TRADE PROJECT

TITLE: PSYCHEDELIC LIGHTING SYSTEM

PRESENTED BY: MR. MUSILI PETER MUTETI

INDEX NUMBER: 107/00705

COURSE CODE: Et 302107

SUPERVISED BY: MR. MABUTI

PRESENTED TO: THE KENYA POLYTECHNIC UNIVERSITY
COLLEGE AS PARTIAL FULFILLMENT OF
THE REQUIREMENT FOR THE AWARD OF
DIPLOMA IN TECHNOLOGY
TELECOMMUNICATIONS ENGINEERING
OPTION

AUGUST 2009

PREFACE

The project input an audio signal from, say a tape recorder, stereo, or a record player, when powered by both 12dc regulated and 240v ac mains supply to produce a rhythmic lighting pattern.

This report covers the entire steps taken from the reason to design, the literature review and project analysis and how it has been designed complication encountered and their remedies have been included, much more can be done is perfect it's efficiency and thus utility. It is therefore open for suggestive criticism.
